EDUCATION

New York University New York, NY
B.A. in Computer Science; Minor in Management and Public Policy *Sep. 2024 – May 2028*
– **Relevant Coursework:** Technology, Law and Policy; Software Engineering; Algorithms; Linear Algebra

EXPERIENCE

Events Lead Dec. 2025 – Present
Tech@NYU *New York, NY*
– Led 20+ events generating 1,500+ RSVPs and averaging 60+ attendees across technical and community programming
– Hosted speakers from SpaceXAI, Google, AWS, Ramp, and Tavily; featured 2x on Luma's NYC calendar
– Launched weekly HackDays combining technical workshops, hands-on building, and peer collaboration
– Lead a 4-person Events Fellow apprenticeship, training organizers to independently plan and operate events

Operations and Systems Intern May 2026 – Aug. 2026
Jubilatio Memorial Park Corporation *Manila, Philippines*
– Improved a small business's workflows by moving payment logs, customer balances, lot availability, and agent commissions into Airtable
– Structured records for 300+ customer accounts and approximately PHP 40 million (USD 640,000) in receivables
– Coded automated PDF statements of account and related reports from customer payment and balance records

Student Researcher Jan. 2026 – Present
NYU AI in Education Vertically Integrated Project *New York, NY*
– Secured a \$975 research grant and independently designed a proposed 100-student study on how undergraduates evaluate AI-generated academic feedback
– Created feedback stimuli, a Qualtrics survey, an analysis plan, and a draft IRB protocol for the proposed study

CAUSE Philippines Sep. 2024 – Present
Externals Co-Lead (Sep. 2026 – Present); previously Mentorship Team Lead *Remote*
– Coordinate external partnerships for a five-part webinar series, resource directories, and the organization's website
– Supported a 40-student cohort; personally mentored students admitted to Harvard, Brown, NYU, and the University of Sydney

SELECTED PROJECTS

Brie | *TypeScript, React, Supabase, MCP* Sep. 2026 – Present
– Built an event operations workspace for tasks, run-of-show, attendance, files, and event history
– Built an MCP server for assistants to search past events and draft new event plans with sources and assumptions
– Added OAuth, role-based access, audit logs, and organizer approval for assistant-generated plans

Sort | *TypeScript, Photon, Anthropic API, Supabase* Aug. 2026
– Built an iMessage assistant that turns syllabi, screenshots, and links into searchable student context
– Integrated Photon, Anthropic, and Supabase to answer questions, plan upcoming work, and send reminders

Steppi | *Next.js, TypeScript, OpenAI API* July 2026
– Built a career exploration app for high school students with conversational intake and editable profiles
– Generated tailored career paths with explanations of role fit, tradeoffs, and day-to-day work

AWARDS

1st Place, Data Centers Track – Berkeley AI Safety Initiative U.S. AI Policy Hackathon Mar. 2026
1st Place, AI x Cyber Track – Tufts AI Safety x Tech@Fletcher AI Policy Hackathon Feb. 2026
Runner-Up, Internet Policy Track – MIT Policy Hackathon Nov. 2025
Dean's Undergraduate Research Fund – New York University CAS Spring 2026

SKILLS

Technical: TypeScript, React, Next.js, Supabase, Vite, PostgreSQL, Vercel
AI development: Codex, Claude Code, Cursor, Conductor
Event & community: Luma, Partiful, Airtable, Slack, Discord, Google Workspace
